# Wall Street Securities Become a Drug in a Featureless and Inactive Market COMMITTEE INSISTS SENOR JUAN RIAND

## NEWYORK'STOCKSTURN VERY DULL, WITH TONE OF MARKET FAIRLY FIRM.

Securities on the New York stock exchange today are almost a drug in the market. Trading is exceedingly dull, prices have moved forward from stout fractions to a full point, have receded slightly more than the advance and have slowly rallied again The entire range even for such activisues as Reading has not been over point and a quarter.

At the opening the market was steady with only fractional changes from las night's close, the differences being about equally divided between gains and losses. There was no pressure to sell as was the case most of the session yes terday. Stocks were offered in vermoderate volume and well taken. The from commission houses, and with all the favorable forces at work during the first hour the market advanced a little

The advance could not hold under the seeming indifference of room traders and the decline was checked probabl by short covering. The market then set tled down to a dull condition, with oper ations as near a standstill as they coul

#### Views on the Strike.

A cheerful view is taken of the rail- Western Maryland..... 50% 50 50% 50% road labor situation, the acceptance by the representatives of the unions of the proposal of President Willard, of the Baltimore and Chio, to call in Commis-sioners Knapp and Neill to arbitrate the differences between that road and its employes, being looked upon in all con-servative quarters as the forerunner of an amicable adjustment.

Reading was not affected by the an-

nouncement that the colleries had closed down for Friday and Saturday and in view of the highly favorable statement of earnings for the month of January the Street is at a loss to understand why the Street is at a loss to understand why the company complains of poor business or why a reduction of time at the shops was attributed to such a cause. Western railroads are entering the equipment market on a heavy scale. Three hundred locomotives have been ordered for early fall delivery during the past month by roads entering Chicago. These orders will be heavily augmented during the coming summer. Western roads which were caught short of power last winter are determined not

Mr. Ellis was one of the speakers at the banquet of the Michigan Society of New York at the Hotel Astor and electrified his audience with a speech against those who array one section of the country against another.

"I am no professional Southerner," declared Mr. Ellis, at the conclusion of his speech. "Those people make me tired. There is one flag in this country, and (pointing to the American flag) it

Mr. Ellis very modestly declared yesterday that he didn't believe there was anything he could add to his address before the Michigan Society. He said it was impromptu and had been inspired by articles he had read in the newspapers of criticisms by people from his section against New York.

Mr. Ellis is a young man, not yet out of his thirties, but he has been a member of the Georgia Legislature for ten years. He was in the State senate four years and presided over that body. The action of the committee followed

ducing a separate bill at this session of Congress to provide for the immediate necessities of the Capital in the matter of public buildings.

While it probably will be several weeks before a decision is reached as to what buildings will be authorized for Washington, three ways are now open for the committee by which they may make necessary provision for the improvements of the city which will make it surpass in grandeur and beauty the capital of every nation on the globe. This is provided for in three ways. First, to provide for Washington in the omnibus bill. Second, to introduce separate bills authorizing expenditures for the needs of the Capital, and third, the bond issue.

#### FROST DAMAGES NEBRASKA WHEAT

Injury to Crop Estimated at 25 to 50 Per Cent By Dealers.

OMAHA, March 4.—Winter wheat in Nebraska has been damaged from 25 to 50 per cent, according to trustworthy reports from all sections of the State. All grain dealers and elevator men agree that the plant has suffered much damage, but differ as to the amount. The most conservative estimate is that of Prof. Montgomery, of the Nebraska Agricultural Experiment Station. He places the damage at 25 per cent. Others report as high as 65 per cent damage. The injury to the plant is caused by frosts since the snew melted, leaving the roots of the wheat uncovered.
